Roof Waterproofing

Flexkote

SKU: WP-FLX-005

> *Single component ready-to-use cold applied flexible waterproofing membrane.*

DESCRIPTION

Flexkote is a single component, ready-to-use, cold applied flexible waterproofing membrane. Ideal for a wide range of waterproofing applications including roofs, foundations, basements, kitchens, bathrooms, balconies and building facades.

Also serves as a vapour barrier and damp proof membrane in sandwich panel construction. Effective for repair and restoration of leaking roofs.

TECHNICAL SPECIFICATIONS

Uses	Roofs, foundations, wet areas
Components	Single component
Application	Cold applied, ready to use
Flexibility	High

waterproofing · roof repair · cold applied · damp proof
